

My comment is regarding keeping my family's favorite station on the air (KLOVE) by NOT approving LPFM. If you do approve these new stations, it could force our station off the air. KLOVE is the only family friendly station in our state and it's in the best public's interest that they remain on the air. It has a POSITVIE effect on the people who listen to it and play up lifting and much needed encouraging music for all who tune in. Music plays such a large roll in influencing our young people that no other station is allow in our household or vehicles. Please do our country a great service and NOT approve LPFM, it will remove the only hope a lot of people have in this world.
